SUMMARY

Electrical and Electronic Engineering graduate from RUET with hands-on industrial training and project experience. Skilled in problem-solving, teamwork, and applying technical knowledge in real-world environments. Quick learner with a strong interest in innovation and adapting to new technologies.

EDUCATION

B.Sc. in Electrical & Electronic Engineering Rajshahi University of Engineering & Technology CGPA: 3.00 out of 4.00	Passing Year-2025
Higher Secondary School Certificate Daud Public College, Jashore Cantonment GPA: 5.00 out of 5.00	Passing Year-2019
Secondary School Certificate Jashore Govt. Shikkha Board Model School & College, Jashore GPA: 5.00 out of 5.00	Passing Year-2017

SKILLS

Software Skills: MATLAB, Adobe Photoshop, Microsoft Word, Excel and PowerPoint, Google Workspace, C Programming, Arduino IDE, PLC Programming, Python, HTML Coding, Wordpress, PCB Design & Circuit Simulation (EasyEDA & Simulink)

Personal Skills: Leadership, Negotiation, Teamwork, Organizational Skills, Time Management, Quick Learner and Adaptable, Technical Documentation & Report Writing

EXPERIENCE

Trainee Engineer - Operations Pran-RFL Group (Durable Plastic Limited, RFL) - Gained hands-on experience with Injection Molding Machines (IMM), molding processes, and polymer materials used in durable plastic manufacturing and coordinated with production, quality, and supply chain teams to ensure smooth product flow from manufacturing to final delivery. - Assisted in troubleshooting electrical components of IMM systems, including sensors, heaters, and control panels, to minimize downtime.	April 2026 – Present
Technical Support Engineer Alliance for Supply Chain Management (EdTech Platform) - Monitored platform infrastructure to ensure uptime, performance, and secure access. - Supported backend operations including server monitoring, data validation, and process automation.	Feb 2025 – August 2025
Industrial Trainee Bangladesh Telecommunications Company Limited (BTCL), Rajshahi - Gained understanding of cross-department operational workflows in a national telecom provider. - Acquired knowledge of server administration, bandwidth management, and wireless network architecture.	Mar 11, 2024 – Mar 31, 2024

CERTIFICATES

Certificate of Leadership

Department of Electrical and Electronic Engineering, RUET

Basic Programming with Python

Institute of Information and Communication Technology (IICT), RUET

PROJECT

- **RFID-Enabled Attendance Management System** -Automated attendance using RFID and microcontroller with remote data access.
- **Smart ECG Monitoring Device (ESP32)** -Real-time ECG signal acquisition and wireless monitoring using ESP32.
- **Home Automation System (ESP32)** -IoT-based control of electrical loads using relays and wireless communication.
- **Website Development for Student & Professional Organizations** -Designed and deployed websites using HTML and WordPress.
- **Android App Development for Administration** -Developed an Android application to support administrative operations and internal management of ASCM Bangladesh.

THESIS

Detection and Mitigation of False Data Ejection Attack (FDIA) in Smart Grid Using Machine Learning

Designed and implemented a machine learning-based framework for real-time detection and mitigation of False Data Injection Attacks (FDIA) in smart grids. Evaluated supervised (MLP, SVM, XGBoost), unsupervised (Autoencoder, Isolation Forest), and ensemble models (Voting, Stacking) on IEEE 14-bus simulation data. Achieved over 99% accuracy with low false positives, supporting online inference and scalable deployment via a Streamlit-based interface.
