SUMMARY

A recent Electrical and Electronic Engineering graduate from RUET with hands-on experience from industrial training, leadership roles, and successful projects. Strong in teamwork, problem-solving, and applying technical skills to practical situations. Motivated to contribute to the development of the electrical and electronics field with a focus on innovation. Quick to learn new technologies and adapt in dynamic environments.

EDUCATION

B.Sc. in Electrical & Electronic Engineering Rajshahi University of Engineering & Technology CGPA: 3.00 out of 4.00	Passing Year-2025
Higher Secondary School Certificate Daud Public College, Jashore Cantonment GPA: 5.00 out of 5.00	Passing Year-2019
Secondary School Certificate Jashore Govt. Shiksha Board Model School & College, Jashore GPA: 5.00 out of 5.00	Passing Year-2017

SKILLS

Software Skills:

- MATLAB, Adobe Photoshop, Microsoft Word, Excel and PowerPoint, Google Workspace, C Programming, Arduino IDE, PLC Programming, Python, HTML Coding, Wordpress, PCB Design & Circuit Simulation (EasyEDA & Simulink)

Personal Skills:

- Leadership, Negotiation, Teamwork, Organizational Skills, Time Management, Quick Learner and Adaptable, Technical Documentation & Report Writing

EXPERIENCE

Technical Support Engineer Alliance for Supply Chain Management (EdTech Platform) - Managed day-to-day operational oversight of digital platform systems, ensuring system reliability, data accuracy, and smooth user access, while following defined operational and security protocols. - Developed a strong understanding of end-to-end operational workflows across multiple functional teams within an edtech platform, supporting coordination, process compliance, and efficient service delivery.	Feb 2025 – August 2025
Industrial Trainee Bangladesh Telecommunications Company Limited (BTCL), Rajshahi - Developed a foundational understanding of the operational workflows across all major departments within a leading national telecommunications provider. - Acquired technical knowledge of server administration, bandwidth allocation and management, and the architecture of BTCL's wireless service delivery.	Mar 11, 2024 – Mar 31, 2024

CERTIFICATES

Certificate of Leadership

Department of Electrical and Electronic Engineering, RUET

Basic Programming with Python

Institute of Information and Communication Technology (IICT), RUET

PROJECT

- **RFID-Enabled Attendance Management System** -Automated attendance using RFID and microcontroller with remote data access.
- **Smart ECG Monitoring Device (ESP32)** -Real-time ECG signal acquisition and wireless monitoring using ESP32.
- **Home Automation System (ESP32)** -IoT-based control of electrical loads using relays and wireless communication.
- **Website Development for Student & Professional Organizations** -Designed and deployed websites using HTML and WordPress.
- **Android App Development for Administration** -Developed an Android application to support administrative operations and internal management of ASCM Bangladesh.

THESIS

Detection and Mitigation of False Data Ejection Attack (FDIA) in Smart Grid Using Machine Learning

Designed and implemented a machine learning-based framework for real-time detection and mitigation of False Data Injection Attacks (FDIA) in smart grids. Evaluated supervised (MLP, SVM, XGBoost), unsupervised (Autoencoder, Isolation Forest), and ensemble models (Voting, Stacking) on IEEE 14-bus simulation data. Achieved over 99% accuracy with low false positives, supporting online inference and scalable deployment via a Streamlit-based interface.
